| <b>Objective:</b>            | I am a highly motivated full-stack web developer with a strong foundation in HTML, CSS, JavaScript, and React, and experience building responsive, user-friendly applications. Enthusiastic about creating accessible web solutions, I bring expertise in optimizing performance and enhancing user experiences. My goal is to contribute to innovative projects in a collaborative team while continuously expanding my technical skills.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Skills and Abilities:</b> | Proficient in front-end and back-end development, with expertise in PostgreSQL, Node.js, Express.js, GraphQL, and Tailwind CSS. Skilled in creating and managing databases, building RESTful APIs, and implementing responsive designs with modern CSS frameworks. Experienced in designing scalable applications and ensuring seamless integration between the client and server.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Communication:</b>        | Excellent communication skills enable me to collaborate with clients, stakeholders, and cross-functional teams to deliver high-quality results.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Education:</b>            | <b>High School Diploma</b><br>Pendleton High School<br>Pendleton, Oregon 97801<br>September 2013 – 2017<br><br><b>Professional Certificate</b><br>University of Oregon<br>Continuing and Professional Education Coding Bootcamp<br>June 2024 – November 2024 <ul style="list-style-type: none"><li>Completed an intensive 26-week program focused on modern web development technologies, including HTML, CSS, JavaScript, React, Node.js, Express.js, PostgreSQL, and GraphQL.</li><li>Developed multiple full-stack web applications, such as LoopLab, which is an innovative and unique social media application where users can create and share flipbook style art, as well as interact with other users' creations.</li><li>Gained hands-on experience with API development, database design, and authentication using JWT.</li><li>Collaborated with peers in agile teams to build projects under tight deadlines, improving skills in version control (Git) and testing (Cypress).</li><li>Enhanced proficiency in responsive design and accessibility using Tailwind CSS and React frameworks.</li></ul> |

**Work Experience:** **Swire Coca-Cola**

Order Builder/Forklift Operator

March 2019 – May 2024

- Operate powered industrial equipment to build orders by pulling defined quantities of inventory onto pallets.
- Build accurate, quality product orders and ensure the order is secure for transport before being loaded into the truck for delivery.
- Perform daily inspection and minor maintenance (as needed) on equipment to ensure safe operation of equipment.
